

Invisalign Clear Braces for Adults & Teens

Get the straight smile you've been dreaming of – with clear custom aligners from Invisalign.

The Clear Alternative to Braces

Better fit, better comfort

Aligners made from SmartTrack® material are more comfortable, better fitting, and easier to put on and take off.

Up to 50% faster treatment times

With weekly aligner changes, you're on your way to the smile you want even faster.

Proven results

SmartTrack® material and SmartForce® features are clinically proven to achieve 75% more predictable tooth movement.

Effective for a variety of cases

Proprietary SmartForce® features and SmartTrack® material make Invisalign treatment effective for complex cases. With innovations like these, your doctor can move your teeth more precisely.

Unique feature for teens

Invisalign clear aligners for teens contain compliance indicators that fade from blue to clear to help gauge wear time.

Ask for your no-obligation Virtual New Smile Simulation and see your results before you even start treatment.
